Can Censor All U. S.
Publications

BOSTON, Mass., April 16.—The alleged censorship power held by Senator Smoot over every government publication was criticized by Roger Rabson today in an address delivered in connection with the Interchurch World movement. "Something which is not generally known," he said, "is that Senator Smoot had a rider attached to a bill giving authority to the joint committee on printing so that not a single government document can be printed unless it is approved by the chairman of the committee."

MAN 'SWEETHEART'
TURNER DECLARES**

Alleging that his wife addressed a man as "sweetheart," and various other endearing names, and has been on such terms of intimacy with him that it is unbearable to live longer with her, Geo. S. Turner, filed suit for divorce this afternoon against Myrtle Turner, with the clerk of the district court.

In his complaint Turner alleges that his wife has treated him cruelly, has associated with another man and has repeatedly told him that she loved another and would live with the plaintiff no longer. He stated that he has always provided her with a good home and has done all in his power to induce her to live with him, to no avail.

The plaintiff prays that the matrimonial bonds be dissolved and each be restored to the status of unmarried persons.

**AIR MAIL ROUTE
TO PASS THROUGH
UTAH IS CERTAIN**

WASHINGTON, April 16.—Enactment of the \$462,500,000 post-office appropriation bill, the largest amount ever granted for the mail service, was completed today by congress, when the house adopted the conference report and sent the measure to the president. The bill provides \$1,250,000 for a transcontinental air route between New York and San Francisco, via Chicago and Omaha, next July 1.

A committee, appointed by the city commissioners, the county commissioners and the Ogden chamber of commerce, is working to have Ogden made a landing city on the aerial mail route mentioned in the above dispatch.

The railway mail service is of the opinion that Ogden is assured a position on the plans route in view of its general advantages with regard to location and railway junction.

**CHARTERS OF THREE
TRAINMEN'S LODGES
REVOKED BY ORDER**

CHICAGO, April 16.—Charters of three lodges, Brotherhood of Railroad Trainmen, were revoked today by A. F. Whitney, vice-president of the order. The lodges are 456, of which John Grunau, president of the "outlaw" yardmen's union, was a member, 647, a stockyards local, and 198 of San Francisco.

More than 700 strikers in Chicago were thus removed from union membership losing their seniority and all other rights. All other strikers in the Chicago district have been given until midnight Saturday to return to work, Whitney announced. If they refuse their membership will be revoked and their seniority rights lost.

It isn't enough that a shoe should conform outwardly to the prevailing fashion, as, in everything else, the degree of care given to the small details determines whether the effect aimed at is achieved.

STYLE and QUALITY are fundamental in JOHN KELLY shoes. But in addition to these they possess the small refinements that well dressed women look for.
